Education

New Mexico State University — Las Cruces, New Mexico
Master of Science in Computer Science — *Aug. 2026 – Present*
Bachelor of Science in Computer Science — *Aug. 2022 – May 2026*

Google Tech Exchange Program — Mountain View, CA
Intensive software engineering program: full-stack development, data structures — *Jan. 2024 – May 2024*

Experience

Critical Skills Recruiting Program — May 2026 – Present
Sandia National Laboratories — *Albuquerque, New Mexico*
- Contribute to a full-stack internal web application
- Selected for Sandia's competitive national early-career pipeline, which fully funds a CS Master's degree

Computer Science Tutor — July 2025 – Present
New Mexico State University — *Las Cruces, New Mexico*
- Tutor 10+ students weekly, one-on-one and in groups, in data structures, algorithms, databases, and operating systems

Verizon Innovative Learning STEM Achievers Instructor — May 2024 – Aug. 2025
New Mexico State University — *Las Cruces, New Mexico*
- Created and taught curriculum for 40+ underserved middle schoolers covering 3D design, CAD, ML, and programming

Projects

AggieMarket | *Expo, React, TypeScript, Bun, Elysia, SQLite, AWS* — 2026
- Led full-stack development of a campus marketplace where verified NMSU students buy, sell, offer services, and post events
- Built the API and real-time WebSocket messaging, and deployed on AWS (EC2, S3); live at aggiemarket.xyz

pantry.ai | *Next.js, TypeScript, React, Tailwind CSS, SQLite, Gemini API* — 2026
- Won 1st place at the DesertDev 2026 Hackathon (Food & Agriculture track) on a team of three
- Built an AI pantry tracker that uses Gemini vision to identify fridge items and generate recipes, meal plans, and food-bank matches

CodeCraft | *Python, Streamlit, Google Cloud, BigQuery, Gemini API* — Jan. 2024 – May 2024
- Led a team of three to build an AI coding education platform, reaching 500+ active student users
- Built a multi-language code execution system with AI pair programming, a study chatbot, and StackOverflow-integrated search

Technical Skills

Languages: Python, TypeScript, JavaScript, Java, C/C++, Go, SQL, HTML/CSS

Frameworks: React, Next.js, Node.js, Express, Flask, Streamlit, Tailwind CSS, Pandas, NumPy

Tools & Cloud: Git, Docker, AWS, Google Cloud Platform, PostgreSQL, MongoDB, SQLite, BigQuery

Leadership & Activities

Technical Officer — Aug. 2024 – Present
Google Student Developer Club, NMSU — *Las Cruces, New Mexico*
- Organize monthly technical workshops for 25+ students covering JavaScript, Python, and LeetCode preparation
- Coordinate coding competitions and connect students with industry professionals
